Peps®

INDIA'S FAVOURITE SPRING MATTRESS

SLEEP LABORATORY

Where Sleep Meets Science.

At Peps, every mattress is tested in our advanced in-house laboratory to ensure superior comfort, reliable support and long-lasting durability. Because you deserve the best sleep, every single night.

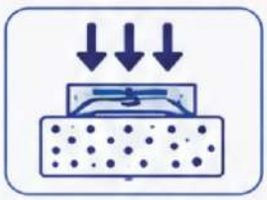

SLEEP LAB TESTING

At the PEPS Sleep Laboratory, mattresses undergo controlled performance evaluations to assess key parameters such as support, comfort, durability and material performance before they reach our customers.

ROLLATER TEST

Our mattresses undergo repeated Rollater testing to evaluate long-term durability, structural stability and performance under continuous load. This helps us ensure the mattress maintains its shape, strength and comfort over extended use.

FOAM PERFORMANCE TEST

Our foam layers are evaluated for firmness, resilience and dimensional stability. These tests help ensure consistent comfort and support while minimizing premature sagging and loss of performance.

SPRING PERFORMANCE TEST

Spring systems are tested for strength, flexibility and repeated-load performance. This ensures reliable support, proper resilience and lasting performance throughout the mattress life.

QUALITY & DURABILITY CHECKS

Every mattress goes through multiple quality checks covering fabric, stitching, edge construction, bonding and overall finish. These inspections help us maintain consistent build quality and dependable performance.

TRUSTED QUALITY
Tested beyond industry standards

ENGINEERED FOR DURABILITY
Built to deliver reliable performance, every day

CONSISTENT COMFORT
Carefully tested for the comfort you can feel

SAFE & RELIABLE
Tested for safety and peace of mind

PEPS PROMISE
Better sleep through better science
