Aroma plains is a striking collection of textured-plains and small-scale weaves made from luxurious, high quality fibers. Soothing and beautifully blended shades of fabrics comprises a special selection of textured material. Each of the three qualities in the collection is suitable for curtains, which will elegantly unify with your space, making it look tranquilizing and comforting.

MACHED SSERIES COLORIDANCE

The criss-cross and slubbed yarns, creating a slightly raised, rich and soft texture. "Aroma" combines with the softness and sparkle to create an irregular yet comforting material, with flowing draping, perfect for making curtains.
